

Innovation Venturing & Entrepreneurship in India Network

2020 India Innovation, Venture and Entrepreneurship Report

Call for Chapter Proposals

About iVEIN

iVEIN Network is a consortium of institutions focused on high quality practice and policy-oriented research in Innovation, Venturing and Entrepreneurship. The consortium would include not just academic institutions and universities, but also other organizations such as the government, incubators, financial institutions, entrepreneurs, mentors and stakeholders associated with innovation and entrepreneurship. The goal of iVEIN is to catalyse knowledge creation and dissemination through high quality research undertaken collaboratively by different stakeholders. By bringing together different stakeholders of the innovation and entrepreneurial ecosystem, iVEIN would help to highlight the importance of interdependencies between different components of the start-up ecosystem.

The 2020 India Innovation Venture and Entrepreneurship Report

The 2020 India Innovation Venture and Entrepreneurship Report would provide critical insights to stakeholders in the innovation and entrepreneurship ecosystem. The main objective of this report is to bring fresh insights backed by academic rigour with a focus on Policy and Practice. This would be achieved through data-driven, analytical research that aims to look at the big picture from different perspectives. This report would augment the understanding of Innovation, Venturing and entrepreneurship landscape in the country and the evidence from research would also act like

a sort of feedback to the system improving effectiveness as well as efficiency. The report primarily aims to inform policy makers, academia and researchers, entrepreneurs, investors, innovators, students, and those interested in the innovation and venturing ecosystem in India.

The 2020 report would have two parts. Part one would present the key trends in Indian Innovation and Start-up ecosystem. This section would serve to be a sort of high quality credible ready reckoner to those who would like to know the status quo and the contours through which the ecosystem has evolved over the years. aims to track the contours of the Innovation and Entrepreneurship ecosystem in India. Part two would be a thematic collection of analytical essays. The theme for the 2020 report is: **Creating Successful Ventures**.

Call for Proposals

iVEIN Network is pleased to announce a call for proposals to author chapters for the Innovation, Venture and Entrepreneurship Report 2020. The proposals can be single- or multiple-authored. Faculty members, researchers, policy makers, investors, entrepreneurs, and industry experts are invited to submit proposals that would fit in the overall structure of the 2020 report provided above.

Submission Guidelines

Interested authors should develop an executive summary or abstract of about 200 words of their proposed chapter. The proposals should include the following:

- Proposed title of the chapter
- List of all authors, their affiliations and contact details
- A 200-word abstract highlighting the focus the chapter. Specifically, data sources that form the basis of the chapter findings should be mentioned

These can be emailed to: iVEIN@wmail.iitm.ac.in by **March 10, 2020**.

Timeline

- 10 March 2020 - Deadline for submission of chapter proposals
- 30 March 2020 - Invitation to contribute along with review suggestions
- 15 July 2020 - Full submission of chapters
