

PLACEMENT REPORT 2014

2014

Department of Management Studies
IIT Madras

The unique advantage of an MBA from an Indian Institute of Technology helps DoMS produce a distinct brand of business professionals. The students become a part of the pan IIT ecosystem, gaining business acumen and the ability to lead technology organizations and companies.

Summer Placements

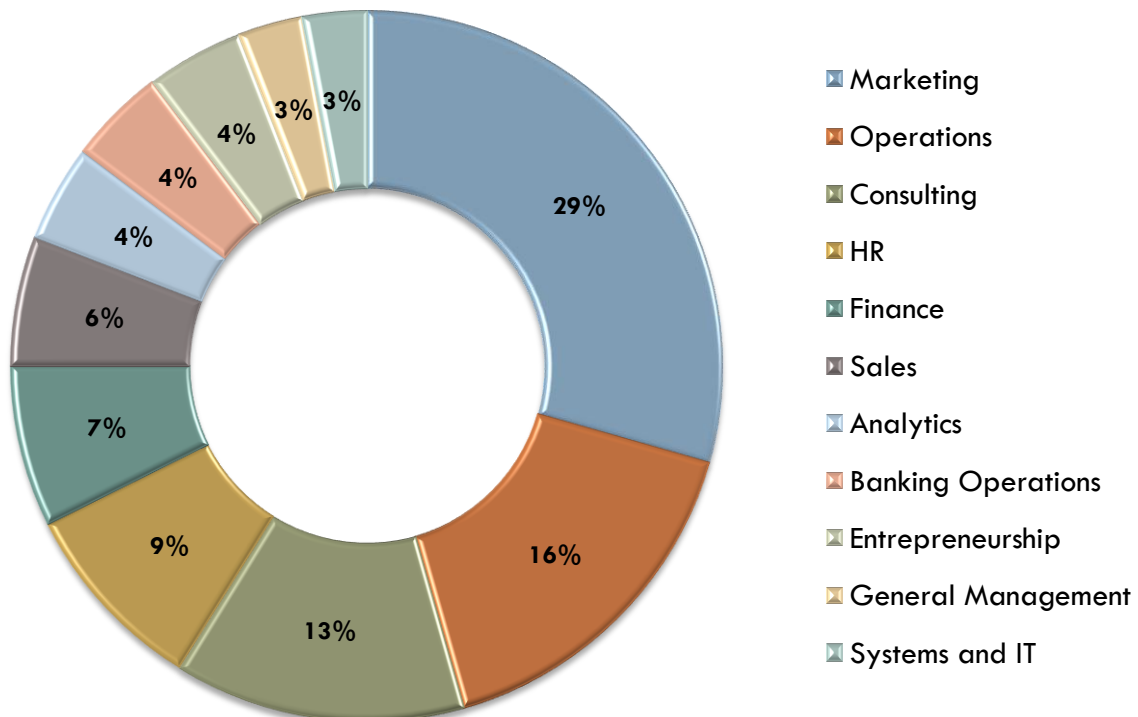

The summer placements conducted for 1st Year Students attracted an overwhelming response from the corporate world. Students were offered Summer Internships in diverse roles and profiles suiting their interests. The Class of 2015 being the first batch to have students with a mix of engineering and non-engineering backgrounds; this presented the recruiters with the diversity and talent from various domains. The batch size is 72 students, out of which all students secured summer internships in reputed organizations.

Highlights

Break-up of Profiles Offered

Students were offered roles in diverse profiles based on their interests. It is an opportunity for them to work closely with companies and develop a long term perspective with regards to their career choices.

Final Placements

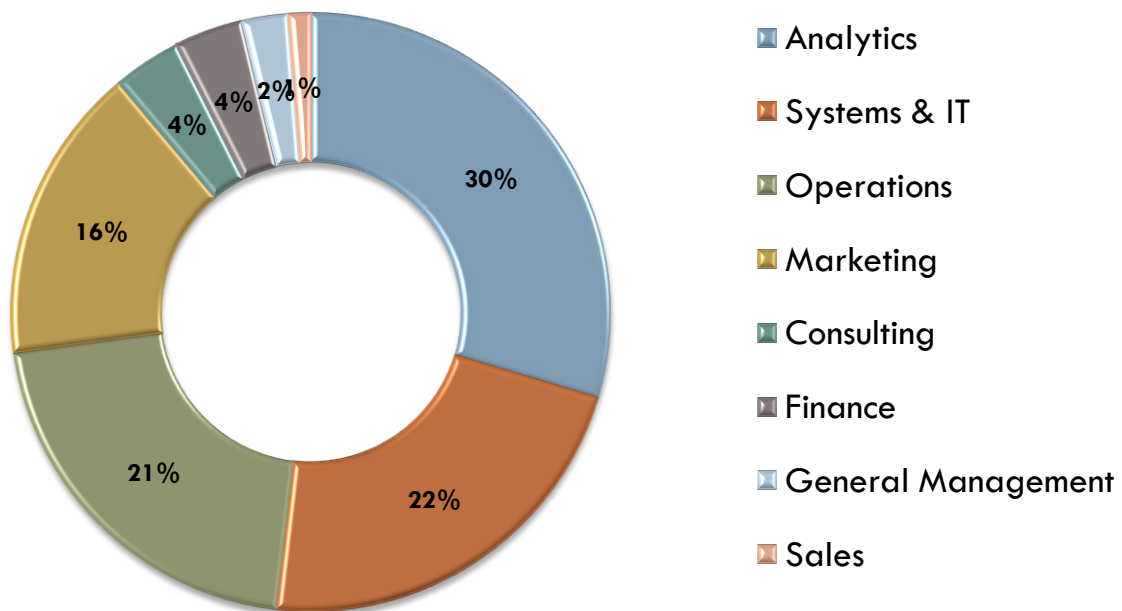

The trust in quality and talent in DoMS was reinforced by the jump in number of companies that participated in the final placements. Students were offered managerial roles in diverse profiles in various sectors.

The Class of 2014 is the largest ever batch to pass out from DoMS; the batch size being 99 students.

Highlights
